

Since its founding in 1973, SFA EYE has been a dedicated platform for the student voice. The SFAI library will be permanently archiving any and every variation of Issue #3 (the piece of paper in your hands), that has been marked in any and every way.

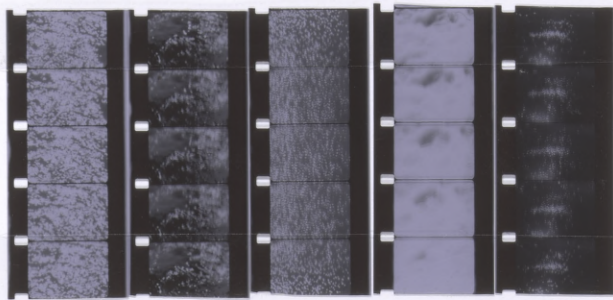

This is an attempt to record as many student voices as possible in this moment in time, and to (re)store in the institutional memory which many feel is lacking.

Simply take this blank issue and fill out with your news, opinions, photographs, illustrations, and/or anything else you believe to be relevant, and bring it to the library to be permanently archived!  
(and possibly displayed for a short time in the café)

If you are interested in making further contributions to the newspaper
